

## EVA Film for Laminated Glass Made in China

China New Concept Glass Materials Co., Ltd. ([www.cncglass.com](http://www.cncglass.com) [cnc@cncglass.com](mailto:cnc@cncglass.com) ) is focusing on the research and development (R&D) and producing EVA FILM interlayer for Laminated Glass. CNC GLASS has built a great technical team to study modifying the property of EVA FILM. High quality is the most important core of our competence. To reach that goal, we launched the most advanced producing line and dustless workshops. Our final goal is to be the provider of NEW CONCEPT of EVA FILM for Laminated Glass to create a NEW CONCEPT living environment for our customers.

### 【CNC-SC Super-Clear (EVA) FILM】 for Outdoor Architectural Safety Laminated Glass

Product Description	Code	Thickness*Width* Length (mm*mm*M)
Super-Clear	CNC-76SC	0.76mm*2250mm*50M
For Outdoor Architectural Safety Laminated Glass	CNC-38SC	0.38mm*2250mm*100M

### 【Characteristics】

- ★Great Light Transmission,  $\geq 91.3\%$
- ★Almost Totally UV Blocked,  $\geq 96.7\%$
- ★Long Weather Resistance,  $\geq 16$  years
- ★Great Tensile Strength,  $\geq 13$  Mpa
- ★Good Adhesive Strength,  $\geq 2$  Kg/cm
- ★Qualified Impact Resistance
- ★Qualified Moisture Resistance

### 【Applications】

CNC-SC (EVA) FILM can be used to make Safety Laminated Glass for Magnificent Building Windows, Bank Counter Window, Automotive Glass, Bullet-Proof Glass etc.

### 【Black and White CNC-B/W (EVA) FILM】 for Decorative Laminated Glass

Series	Type	Thickness*Width*Length
White-opaque	CNC38WO	0.38mm*2000mm*50M
White-Half-Clear	CNC38WH	0.38mm*2000mm*50M
Black-opaque	CNC38WBO	0.38mm*2000mm*50M

**【Colored CNC-C (EVA) FILM】** for Decorative Laminated Glass

Colored-Half-Clear		Thickness*Width*Length
CNC38CH-R	Red	0.38mm*2000mm*50M
CNC38CH-LY	Lemon Yellow	
CNC38CH-B	Blue	
CNC38CH-DG	Deep Green	
CNC38CH-GG	Grass Green	
CNC38CH-PI	Pink	
CNC38CH-PU	Purple	

Colored-Clear		Thickness*Width*Length
CNC38CC-R	Red	0.38mm*2000mm*35M
CNC38CC-LY	Lemon Yellow	
CNC38CC-OY	Orange Yellow	
CNC38CC-B	Blue	
CNC38CC-DG	Deep Green	
CNC38CC-GG	Grass Green	
CNC38CC-PI	Pink	
CNC38CC-PU	Purple	

CNC Colored Films are often used to laminated with PET dorsal membrane, Painting paper (PP, PVC), and fabric etc.; More than 18 colors are available for our customer to produce NEW CONCEPT Decorative Laminated Glass of great artistic sense, which mainly implied in High-end Hotel, Museum Show Window , Bathroom Sliding Door, etc.
