产品/机械

Manufacturer of Flat Glass, Safety Glass, Laminated Glass, Insulation Glass, Solar Glass, Soundproof Glass, Bulletproof Glass, Structural Glazing
Giga Lites

International demand for oversized glass products is on the increase. They are used, for example, when architects want to design exclusive glass constructions with complete façades composed of very few individual panes.

With Giga Lites, AGC Interpane has now developed glass panes that are among the largest coated glass products in the world. The maximum deliverable size for coated float glass is 18.00 x 3.21 metres – with a maximum thickness of 20 mm.

Several factors need to be considered during installation, such as the weight of the glazing units and of the individual panes or the minimum thicknesses of the different types of glass. Adapted brackets or elastic fittings must be used. The weight, dimensions and the larger width of the edges must be verified to ensure that the planned window or façade system is suitable for this type of product. Of course, transport and installation also need particular consideration.

产品和背景

Interpane is a medium-sized corporate group - one of the major European glass processors. "We make more out of glass."

Interpane has its headquarters in Lauenförde, Germany, in the midst of the charming Weserbergland (along the River Weser). Lauenförde, Germany has been the main works since 1971 and is still today the largest production works in the Interpane group. Some 200 staff work here.

Our product spectrum comprises not only conventional insulating glass but also multi-functional thermal glass, sound-proofing glass, and solar-control glass, safety glass, all-glass doors and panels, and coated copper band for solar collectors.

The Interpane group nowadays comprises twelve production plants at ten different locations in Germany, Austria, and France. Our group has its main works in Lauenförde (Weserbergland).

Interpane Entwicklungs- und Beratungsgesellschaft (the development and consultation company) in Lauenförde is the group's research and development center. Its services are also available for the group's partners and customers for clarifying technical questions regarding specific product applications.

Company Profile of **Interpane Glas Industrie AG**

A service of glasssglobal.com, an affiliate of glasssglobal group.
