Contact 3.	先生 Christoph Cichy Vertriebsleiter Leuchten/Sales Manager Luminaires Phone: 0049 231 9455 128 Fax: 0049 231 9455 49128

## 产品/机械

High quality flat glass with high permeability and long-term durability against sunlight is necessary for utilizing the energy from the sun effectively and economically and for using it as a real alternative to fossil fuels.

We supply low iron patterned glass and low iron floatglass for solar appliances such as solar collectors or photovoltaic modules:

/// **T - SAFE SOLAR Pattern:** Solar patterned glass for photovoltaics and solar heating

/// **T - SAFE SOLAR Float:** Solar floatglass for photovoltaics, solar heating and thin film modules

/// **Energyvision – anti reflective Glass:** AR coated solar glass für solar collectors and photovoltaics

## 产品和背景

Experience, variety and innovation – these are the three principles on which our success as a world wide supplier of specialty glass is based.

For our products

**T-SAFE SOLAR (Solarglass) and  
BOROVISION (Borosilicateglass)**

Hecker operates through both its in-house production and its high performing partners. With this strategy, we manage to establish a reliable, international network of production sites. Commercial, technical or logistical questions, quality control and international standards: we align our decisions to the needs of our clients.
