产品/机械

Today, **CRL** designs, engineers, and manufactures a wide variety of architectural hardware, including commercial and residential architectural railings, hardware for "all-glass" commercial entrances, transaction hardware, and frameless shower door hardware. We also manufacture a quality selection of automotive window products. More than one million square feet of space is dedicated to our distribution and manufacturing operations in Los Angeles.

We manufacturer a wide variety of architectural metal elements, including custom cladding, ornamental metals, metal column covers, wall panels, infill panels for railings, and custom sunshades. Our **U.S. Aluminum** division manufactures aluminum storefronts, entrances, windows, curtain walls, window walls, and sun control systems. Our customers are using these architectural metals in conjunction with our door rails, exit devices, handles, railings, and other architectural hardware, to create entire 'all-glass' storefront entrance packages for their customers.

Our rapid growth is based on our reputation for service, which continues to be the backbone of our company. Our emphasis is on meeting and surpassing customers' expectations, and our willingness to adapt to the changing needs of our customers. Our commitment to deliver quality customer service begins with our CEO, Donald E. Friese, who reminds our employees to think of ourselves as goodwill ambassadors for our company and who keeps us moving forward in the customer service arena.

Company Profile of **C. R. Laurence Co. Inc.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
