产品/机械

Valoref is the leading recycler of refractory materials in Europe, and is currently developing three additional activities for its customers

for the glass, chemicals, steel-making, petrochemicals and incineration industries, **Valoref** offers total management of refractory materials originating from furnace repairs (total or partial);

for refractory specialists and the ceramics industry, **Valoref** produces a whole range of secondary raw materials, produced by valorisation of refractory materials than can be recovered;

Finally, for consumers of refractory products, **Valoref** produces and markets manufactured products.
