产品/机械

Supplier of metals and chemicals for glass melting

Safety glass technology: **KRYSTALFLEX® PE 900** is designed for use by glass laminators to seal the edges of multilayer composites made from glass or glass / plastic components.

It offers the following benefits:

- provides a degree of protection to the edge of the glass laminate from chipping or other mild physical damage
- minimizes moisture penetration between the composite layers
- minimizes migration and potential damage from solvents contained in the caulks used to install the finished laminates
- Creates an aesthetically pleasing appearance on the laminate edge

Refined glass

Company Profile of **Huntsman (Germany) GmbH**

A service of glasssglobal.com, an affiliate of glasssglobal group.
