AGC Automotive is the world's largest automotive glazing supplier with 30% global market share.

Automotive safety glass is designed to create a safer environment from the elements and possible hazards of driving while providing clear and undistorted view of the road and the surroundings. Glass is strengthened by lamination or tempering when forming ordinary flat glass to customer specific shape and requirements.

LAMISAFE AGC brand for laminated glass
TEMPERLITE AGC brand for tempered glass

AGC Automotive' solution for clear radio, TV and other telecommunication devices is On-Glass Antenna technology. Apart from clear reception with style, this technology provides economies in both parts and assembly while eliminating the weight and design restrictions of mast antennas.
