州	Ohio

## 产品/机械

Application and Control System Solutions  
Engineered for today's demanding industrial environments

Hot-End Drive Controls  
Defect Marking Control Systems  
YCUT Control Systems  
Mainline Conveyor Control Systems  
Spurline Control Systems  
Stacker Control Systems  
Coater Conveyor Control Systems

### Mainline Control Systems:

Closed and open loop discrete layout tracking designs  
Multiple destination (unload) glass routing control  
Redundant and non-redundant controllers  
Interface with Reliance PDP-11 cutting systems  
Closed and open loop discrete layout tracking  
Loss reporting to initiate automatic re-cut  
Berthing conveyor control  
Cullet return system interlocks  
YCUT separation device selection algorithms  
Speedup conveyor drive/clutch control  
Trim deck conveyor and tool automatic positioning and trim tool actuation  
Score separation tool automatic positioning and actuation  
Camera system communication interface  
Cullet drop automatic control (standard and multiple-finger designs)  
Powder machine automatic control  
Spurline transfer device coordination/control (flow gate, crane, walking beam, etc.)  
Jumbo conveyor positioning and alignment control  
Jumbo Stacker communication interface

### Spurline Control Systems:

Manual pack, mini-stacker and lehr-end stacker single and dual stream spurlines  
Network interface to mainline control system  
Split corner table covey generation control  
YCUT separation control utilizing a dynamic snap roll and speedup conveyor  
Rotator and flipper control including automatic cup selection  
Camera system communication interface  
Cullet drop automatic control (standard and split designs)  
Power machine automatic control including variable application coverage  
Stacker conveyor positioning and alignment control  
Stacker communication interface

Company Profile of **Millenium Control Systems Inc.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
