产品/机械

Supplier of Screen printing techniques, Machinery/ tools, framing, painting and texturing tools

The SignTronic StencilMaster 1621 SignTronic is proud to present the world's first fully automated in-line screen prepress with direct digital UV exposure. Not only will you save costly films, time and money - the SignTronic StencilMaster is set to revolutionise your prepress. With the SignTronic StencilMaster, your prepress will no longer be the bottleneck in production capacity and image quality.

The SignTronic StencilMaster 1621 exposes screens digitally to.

UV light at a production speed up to 26 m² (280 sq. ft.) per hour on the standard emulsions available today. The StencilMaster is constructed for the fully automated vertical in-line production of frames up to 2300 x 2700 mm. (90"x 106") with an image size of 1600 x 2100 mm. (63" x 83"). The high resolution of 1270 DPI, micron precision and sharp dot reproduction ensure a unique image quality with screen rulings up to 60 l/cm (150 lpi).

The StencilMaster is an open system which interfaces to any RIP which output one-bit TIFF files.

The SignTronic StencilMaster is also available in a Computer-to-Plate (CtP) version for offset printing and in a combined version for the production of screens and offset plates
