Supplier of Lubricants

We are a leading global producer of acetyl products, including acetic acid and vinyl acetate monomer ("VAM"), polyacetal products ("POM"), as well as a leading global producer of high-performance engineered polymers used in consumer and industrial products and designed to meet highly technical customer requirements.

We are one of the lowest-cost producers of key building block chemicals in the acetyls chain, such as acetic acid and VAM, due to our economies of scale, operating efficiencies and proprietary production technologies.
