州	Wisconsin

产品/机械

Polyester, vinylester or epoxy resins and glass fiber are the main raw materials used in pultrusion. With different combinations of these materials, Advanced Fiber Products can create a solution to meet your most challenging demands. We can produce standard structural shapes, including angles, tubes and rods, plus custom shapes to suit specific applications. And because all fabrication and painting is done at our facility, you're assured of premium quality and on-time delivery.

Company Profile of **Advanced Fiber Products**
