产品/机械

The company now produces embossed glass in more than 40 different styles, and makes transparent, tan, gray, blue, green, and yellow embossed glass and colored wire glass. It is the sole producer of colored wire glass in China. The most popular specification is currently 2134mm × 2440mm, with a thickness of 3-6mm. The plant is one of the largest embossed glass production facilities in China, and offers some of the best quality and widest range of specifications.

Due to the rapid development of the photovoltaic battery industry in recent years, there has been a large and growing demand for the glass panel used in these solar products. Because of this, Qingdao Embossed Glass began producing ultra-white photovoltaic glass June 2007. The company's main photovoltaic glass products consist of 3.2mm ultra-white fabric-pattern and ultra-white double-velvet glass used as glass panel in the production of solar batteries.
