产品/机械

Glass has traditionally served to provide protection from the outside world while at the same time letting natural light into buildings and dwellings. There was a time when its intrinsic properties meant that its range of uses was very limited.

Modern glassmaking technology can produce glass capable of providing protection from heat, cold, noise, fire, assaults and accidents. Glass beautifies our internal and external environment. It can create a sense of privacy and keep out prying eyes.

Multiple functions can even be combined in one and the same glazing, paving the way for virtually unlimited applications.

Interior design: Transparency, Safety, Colours, Geometric and figurative designs, Privacy, Mirrors

Solar contro

Vision: Light, transparency

External appearance: Design and Architecture, Privacy, Georgian Bars, Spandrels
