地址	3B-The Fibreglass Company Route de Maestricht 67 4651 Battice
国家	比利时

产品/机械

3B offers a wide range of fibreglass products for the reinforcement of thermoplastics and thermosets. Different glass types are available depending on the processing needs or end-use requirements.

3B uses the Advantex® technology, the recognized benchmark in the fibreglass industry for clean technology.

Advantex® glass has been formulated to be a boron-free E-glass. As well as its more beneficial ecological profile, Advantex® glass also gives significantly improved corrosion resistance properties over standard E-glass. In accordance with ASTM D578 and ISO 2078 Advantex® glass is both an E-CR glass and an E-glass.

3B also produces the HiPer-tex™ high performance fibre which is the result of a groundbreaking development in manufacturing technology that enables high performance fibreglass to be produced at an attractive cost.

HiPer-tex™ reinforcement was designed to meet industries' demands for high mechanical strength, stiffness and impact resistance - while also offering significantly higher thermal and corrosion resistance properties compared to E-glass reinforcements.

The 3B product portfolio is continually developing so if you don't see the product you want, contact us for more information.

Company Profile of 3B-The Fibreglass Company

A service of glasssglobal.com, an affiliate of glasssglobal group.
