Float Glass, Shower Glass, Shower Enclosures, Hardware, Aluminium, Architectural Glass

Roclin is a professional sourcing and quality control firm based in China. The company is Western managed with multi-lingual staff on hand to meet clients' requirements and service their needs by working with our network of qualified factories in China.

In the cost cutting process, many businesses are looking for alternative suppliers in the Far East to assist in making significant savings without having to compromise on quality.

We are already helping many European and American based glass distributors, architectural contractors, and industrial glass users reduce their costs by sourcing direct from what has become the world's largest, most competitive and lowest cost glass market.

We have a proven track record in sourcing a range of materials from float glass sheets to tempered and laminated panels. We are used to working to stringent quality requirements and will deliver within agreed timescales. All of the factories we work with have state of the art imported equipment that enables us to supply glass that meets all relevant European, North American and other international standards.

CURRENTLY WE ARE HIRING SALES AGENTS IN EUROPE, NORTH AMERICA & AUSTRALIA

Company Profile of Roclin Global Sourcing

A service of glasssglobal.com, an affiliate of glasssglobal group.
