产品/机械

View Dynamic Glass lets in more daylight and reduces glare to provide optimum comfort and a connection to the outdoors.

View Dynamic Glass adjusts throughout the day to optimize the indoor climate and the outside view, creating more comfortable, productive, and energyefficient interiors that help people thrive.

Control View Dynamic Glass from anywhere. Create schedules, track energy efficiency, and manage entire buildings from your iOS or Android device. View Dynamic Glass transitions seamlessly between multiple tint states. Nano-layers of electrochromic coating on the surface of the glass respond to a tiny voltage, tinting the glass, and putting you in control of your view.

Company Profile of **View Inc.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
