产品/机械

Screen printing technology on glass and self adhesive labels

Our Eco Inspection equipment is based on the use of straight through equipment, intelligent programming and where possible the use of recycled parts. This way of designing and engineering helps protecting the environment.

Rosario Base & Finish Eco-Inspector, model BF

The Rosario Eco inspector is very economically priced. We are convinced that this period of climbing out of a global economical dip is THE MOMENT to introduce our brand new and very attractive Eco-Inspector.

Rosario high speed, high quality Eco bottle screen printing machines

General specs:

Bottle diameter : 98 mm
Bottle height : 350 mm

All our machines are equipped with following features:

3-Dimensional screen fine adjustment
Newly designed light weight, lubrication free, screen support drive mechanism
Servo driven bottle rotation stations
High speed mechanical seam registration
To save the Environment: built of recycled parts

Optional equipment:

Semi- and Fully automatic paint dispensing systems
Non-contact optical seam registration
Lehr stacker and all conveying equipment
Depalletizing and palletizing equipment
