产品/机械

At McMullen Architectural we can offer a Total Envelope solution to complex projects. We specialise in technically demanding facades. All Design is carried out by our directly employed Façade Engineers and Technicians.

A dedicated team is appointed to each project including Sales & Estimating support, Engineering Design, Contracts Manager and Site Team (including Health & Safety and Site Supervisors). The Client can be confident in the knowledge that they are receiving a quality product and service from initial concept through to final hand-over.

We offer a wide range of product to meet the demands of even the most complex façade. The majority of these elements are manufactured through our state of the art factory in Moira which works to ISO14001 and ISO9001 principles.

Company Profile of **McMullen Architectural Systems**
