## 产品/机械

Linear Coating Sources  
Batch Coating Systems  
Flange Parts  
Feedthroughs  
Valves  
Chambers and Systems  
Pumps

The modern vacuum technology is essential for the production of many high-tech products and articles of the daily life.

The production of solar cells, semiconductors, DVDs, glass for protecting against heat as well as the coating of high-quality, mechanical tools or also eyeglass lenses represent only some sample applications for the vacuum technology. Also in research & development, in the environmental technology, analytics as well as in the automobile industry vacuum plays an important role.

### Company Profile of **Just Vacuum GmbH**

A service of glasssglobal.com, an affiliate of glasssglobal group.
