产品/机械

The Institute of Materials and Mechanics in Civil Engineering combines research and teaching activities in the fields of "Structural Analysis", "Mechanics" and "Materials in Civil Engineering" in order to provide a consistent level of knowledge for structural design. In research, structural calculations such as finite-element simulations, safety and reliability analysis or fracture mechanics and material testing are combined for a consistent understanding of structures.

Company Profile of **TU Darmstadt IWMB-FG Statik**

A service of glasssglobal.com, an affiliate of glasssglobal group.
