Glass Melt Furnaces

Temperature

1600, 1700, 1800° C (2900, 3100, 3300° F)

Deltech high temperature glass melt furnaces are resistance heated using silicon carbide or molydisilicide heating elements.

Models

Bottom loading. Front Loading. Bottom Loading Vertical Tube units for convenient loading of small crucibles combined with corrosion resistance and atmosphere control. Atmosphere envelope furnaces for processing in inert gases. Custom designs featuring multiple process chambers and such features as robotic movement of the crucible from melting through quenching.

Features

Ceramic linings for corrosion resistance. Stir ports. Pneumatic or electric lift systems. Safety lock on load platform. Optional atmosphere envelope designs for processing in inert gases. Custom designs for unique application requirements. Optional HMI control systems.

Every Deltech control system is certified by Intertek to be UL508A compliant.

Company Profile of **Deltech, Inc**

A service of glasssglobal.com, an affiliate of glasssglobal group.
