## 产品/机械

Vacuum produces conditions that are similar to those encountered in outer space and are indispensable in the production of numerous high-tech products and many items that are used in daily life.

Pfeiffer Vacuum stands for innovative and custom vacuum solutions worldwide, for German engineering art, competent advice and reliable service.

Manufacturing processes of solar cells, semiconductors, DVDs and thermally insulated glass, as well as for coating high-stress mechanical tools or eyeglasses represent only a few examples of applications for vacuum technology. Vacuum also plays a major role in research & development and environmental technology, as well as in the analytical and automotive industries.
