产品/机械

The range includes toughened (tempered) glass, safety and security laminates (including cyclonic, flood, ballistic, attack and impact resistant) and digitally printed ceramic ink solutions. Many of these can be combined and supplied on simple or complex curves, as well as flat panes.

We can offer a digital site measure service that utilises the latest scanning hardware to produce electronic templates with unmatched accuracy, doing away with the need for the cumbersome and time consuming measure, production, transportation and storage of physical templates.
