## 产品/机械

### FIRST CHOICE IN IS-MACHINE CONTROL SYSTEMS

futronic is a supplier of IS-Machine Control Systems, Drive systems for IS-Machines; System for segregating glass containers at IS-Machines; Equipment for Process Control, Process Automation.

They are manufacturers of electronic control systems and offer complete solutions from development to production in series, all at one hand. Their main field of activity is the glass industry.

Their IS machine control type FMT24S is a state-of-the-art distributed machine control system. It consists of interconnected modules that mainly communicate over industrial buses. It can be expanded with FMT24S-specific modules as well as any standard, bus-capable digital I/O modules, analogue I/O modules, interface converters, etc. Other important features include:

- Full servo integration
- CANopen® safety bus
- Valve current monitoring
- Analogue actuating elements

Integrated electric overrides  
Networked PLCs  
Mushroom-head pushbutton without additional wiring  
Internet technology

The module technology employed for this system and the way in which it is integrated mean customers are assured maximum flexibility.

#### Company Profile of **futronic GmbH**

A service of glassglobal.com, an affiliate of glassglobal group.
