产品/机械

Manufacturer of Glass Blocks The products manufactured in the Duchcov plant which today boasts four high-tech production lines fuelled bmodern methane gas furnace, include the following:

- Glass blocks for the construction industry.
- Pressed glass products for lighting applications. Vitrablok offers a wide variety of options in dimensions, design and colours.

It is possible to apply the product in designing windows, straight walls, walls with varied curvature, walls discontinued in different ways or even walls with shaped end. A glass concrete construction is result of glass block application. By means of design selection it is possible to control an amount of light going into object and to select among transparent or non-transparent products. Vitrablok products allow to create rich and marvellous coloured effects in interiors as well as in exteriors.
