Contact 2.	先生 工程学位 Tobias Wachtmann Head of Vertical Glass

## 产品/机械

**Siemens Digital Industries (DI)** is an innovation leader in automation and digitalization. Closely collaborating with partners and customers, DI drives the digital transformation in the process and discrete industries. With its Digital Enterprise portfolio, DI provides companies of all sizes with an end-to-end set of products, solutions and services to integrate and digitalize the entire value chain.

Optimized for the specific needs of each industry, DI's unique portfolio supports customers to achieve greater productivity and flexibility. DI is constantly adding innovations to its portfolio to integrate cutting-edge future technologies.

Siemens Digital Industries has its global headquarters in Nuremberg, Germany, and has around 76,000 employees internationally.

### Glass Industry at Siemens:

The extensive portfolio of Industrial Software and Automation seamlessly connects the virtual and real worlds for the glass industry – also with cloud-based systems, as appropriate. This allows glass manufacturers, plant and equipment manufacturers to integrate and digitalize their entire value chain – including their suppliers and partners.

Our teams combine glass- and industry-specific knowledge, from raw materials to the finished product, with expertise on the field, automation, and process management levels as well as the corporate leadership level and its specific IT requirements.

We recommend a holistic approach for increased transparency in glass production and further processing and, hence, increased availability, higher productivity, and improved cost efficiency.

## 产品和背景

**Siemens AG** (Berlin and Munich) is a global technology powerhouse that has stood for engineering excellence, innovation, quality, reliability and internationality for more than 170 years.

The company is active around the globe, focusing on the areas of intelligent infrastructure for buildings and distributed energy systems, and automation and digitalization in the process and manufacturing industries. Through the separately managed companies Siemens Energy, the global energy business of Siemens, and Siemens Mobility, a leading supplier of smart mobility solutions for rail and road transport, Siemens is shaping the energy systems of today and tomorrow as well as the world market for passenger and freight services.

Due to its majority stakes in the publicly listed companies Siemens Healthineers AG and Siemens Gamesa Renewable Energy (as part of Siemens Energy), Siemens is also a world-leading supplier of medical technology and digital healthcare services as well as environmentally friendly solutions for onshore and offshore wind power generation. In fiscal 2019, which ended on September 30, 2019, Siemens generated revenue of €86.8 billion and net income of €5.6 billion. At the end of September 2019, the company had around 385,000 employees worldwide. For further information click [here](#).
