产品/机械

Engineering, Software Development, CAD Systems

OPTIFER 4 - Modern Design Flexible Production Control

OPTIFER4 - our brand new production planning and control system for double glazing, toughened glass, laminated glass, furniture glass and mixed products comes with a complete graphical user interface.

OPTIPLUS - The Complete Order Management Solution

OPTIPLUS covers a vast majority of business activities. From order processing with integrated CAD functionality to purchasing and internal control all the way through dispatch management and invoicing, OPTIPLUS excels.

OPTICAD - Computer Aided Design -

CAD for catalogue shapes - CAD for complex processing - CAD for Georgian designs - CAD for stepped units

OPTIWIN - The Compact Solution

OPTIWIN is a flexible order management system specially developed for use by small to medium sized glass producers and glaziers. OPTIWIN provides all features of a commercial application and contains order entry, invoicing, route planning, purchasing, stock control, and statistical evaluations.

OPTIPLAN 4 - Optimisation In Modern Design

OPTIPLAN4 is a completely Windows based optimisation system for glass processing companies and cutting table manufacturers. Among other functional highlights, OPTIPLAN4 has a flexible input generator that allows the user to individually configure input fields. System interaction is possible via keyboard, mouse, or touch screen. Metric or imperial/standard input options (/32, /64 fractions of an inch, decimal inch) are available.
