产品/机械

Supplier of Furnaces for Thermal Toughening, Bending Technology, Broad Line of Heat Processing Furnaces, Combustion Systems, Fuel Blending Systems, Low NOx Wall & Floor Burners and Components

With the combined portfolios of Pyronics, Ray Burner, Red-Ray, Ensign Ribbon Burner, and Webster Combustion, Selas offers more heat technology solutions than any other combustion company.

Selas advantages include:

- The most diverse range of industrial burners in the market
- Expert application support ensuring the best solution for your needs
- Product innovations to reduce operating costs and improve yield
- Customized combustion solutions for both OEMs and end users
- A field service team dedicated to keeping your equipment running at peak efficiency

Contact a Selas sales engineer today to discuss any of the following:

- Premix or nozzle mix industrial burners
- A wide range of specialty burners, some of which are used for process air heating
- Combustion components such as valves, mixing equipment, regulators, monitors, blowers, and safety devices
- Custom integrated system solutions for unique applications

Aftermarket services, startup, and maintenance support

产品和背景

Selas offers a broad line of heat processing furnaces, combustion systems, premix burners and components. Included are combustion controllers that maintain gas/air ratios over wide turndown and premix monitors that adjust for gas/air variances before production is affected.

Company Profile of **Selas Heat Technology Company LLC**
