产品/机械

PRO TEC wood and aluminium window systems PRO TEC's range is also available with original, old-style profiles on the inside. The new windows give an attractive interior appearance – casements, frames and sills are wood. The wood and aluminium window system is available in any possible colour, on the inside as well as on the outside. The windows need no outside maintenance – no painting or any other form of protection. On the inside, wood offers plenty of convenience. For instance when fitting or replacing curtain rails or Venetian blinds.

Company Profile of **PRO TEC VINDUER A/S**

A service of glasssglobal.com, an affiliate of glasssglobal group.
