## 产品/机械

At isophon glas, we do not just produce insulation glass, we are also specialized in the processing and finishing of glass.

Being capable of drilling, polishing, sandblasting, sawing and milling glass without any limitations, we are capable of processing glass in a lot of different ways using innovative techniques and the most advanced machinery.

Thanks to our advanced laser system, we can deliver any kind of glass with sizes up to 4 x 10 m with nearly any given image. Furthermore, we provide a wide range of colored glass and any type of mirror.
