产品/机械

Names for Vaseline Glass Vaseline Glass is a type of glass, but each manufacturer of yellow-green glass had their own particular name for the 'glass that glows'. Remember also, that when this glass was originally made, UV lights were not yet in existence and the only purpose to add uranium dioxide was to get a different color to sell. Various names that Vaseline glass goes by: yellow, or yellow-green glass Canary (most all older companies) Canaria (Pairpoint) Primrose Pearline (British: Davidson glass) Citron (Steuben) Topaz (Fenton & Cambridge) Jasmine (Duncan & Miller) Golden Green (Imperial) Mustard (Imperial) Florentine (stretch glass by Fenton) Rubina Verde (usually yellow-green on the bottom with a red flashed finish on top of the item) Vaseline glass also is made in the following finishes: plain yellow & yellow-green Iridescent (Carnival) Opalescent Stretch Stretch iridescent Satin Cased with different internal glass
