产品/机械

High-purity fused silica for the optical, chemical and semiconductor industries

产品和背景

Heraeus Quarzglas is one of the world's technology leaders in the manufacture and processing of high-purity quartz glass.

The materials specialist produces and processes various types of high-purity fused silica for the optical, chemical and semiconductor industries in more than 13 production facilities in Europe, Asia and North America. Quartz glass products are used for the manufacture of large-scale and precision optics and microchips, in telecommunications and laser technology, analytics, and the chemical industry.

Company Profile of **Heraeus Conamic**

A service of glasssglobal.com, an affiliate of glasssglobal group.
