## PREMIUM REFRACTORY SOLUTIONS FOR THE GLASS INDUSTRY

**THINK HIGHER – The complete range of high-quality refractory materials – including the original feeder expendables and refractory formulas designed by Emhart Glass**.

**Your advantages:**

- Premium refractory quality – for crystal-clear results
- Tailor-made solutions for your requirements
- Advisory expertise in industrial glass applications
- Expert know-how in hot gas filtration processes

# OUR CRYSTAL-CLEAR GOAL: QUALITY EXPERTISE

For perfect glass processing with crystal-clear results, only high-purity raw materials are approved in purchasing and quality assurance for refractory parts at RATH. From refractory and insulating concepts to regenerators, melting tanks, forehearths, feeder expendables and hot gas filter elements, our application engineers ensure that every single component is absolutely true to size and meets the chemical and thermal requirements. In particular, the purity and surface quality of the components are top priorities for our refractory experts and are ensured by our certified staff in the RATH laboratories.

# OUR GOAL

**We want to help you reduce your production downtime and enable you to become more competitive and sustainable with our refractory technology!**

For melting tank construction RATH offers a comprehensive range of fireclay, andalusite, mullite, zircon-mullite, zircon-silicate and high-alumina products, as well as all types of thermal insulation products.

# COMPLETE RANGE

RATH products are suitable for all types of glasses, including soda-lime glass, barium crystal glass, borosilicate, and opal glass applications. Choose from a wide variety of refractory compositions to find the best material to reduce cleaning (blistering) after changing feeder expendables.
Contact us for your free of charge sample to test our qualities!

# 产品和背景

The Rath Group with its comprehensive range of refractory products up to 1,800°C is an internationally active company that belongs to the most recognized specialists in the field of refractory technology. Everything started in 1891 with the takeover of a porcelain manufacturer in Krummnußbaum. This was the first step for the formal family enterprise into an international company. Today the company with over 500 employees is active world-wide and quoted at the Vienna Stock Exchange.

Rath combines tradition and innovation in an ideal way. The result is optimal refractory solutions for different glass applications. Our wide product range is coming from our own production. We guarantee high quality through chosen material and precise techniques of processing. As a full-service provider, we not only offer our customers a broad range of refractory materials, but also support them with overall solutions and specific expertise – from the planning stage through to installation.
