产品/机械

Glass packaging protects its content and enhances a brand's appeal. As a permanent material glass is 100% and infinitely recyclable, making it the perfect packaging choice for products today and in the future. Ardagh produces distinctive and innovative glass packaging in all shapes and sizes for the world's leading brands and offers a choice of almost 20 different colours.

Being infinitely recyclable, a glass bottle or jar can be made into a new one over and over again, with no loss in quality or purity. Making new glass bottles and jars from recycled glass reduces the amount of energy needed in the production process and lowers emissions into the atmosphere.

When it comes to quality products and service, Ardagh is regarded as the industry's leading provider. It's by the standards we set that others are measured. Continual improvement processes, rigorous key performance indicators and advanced inspection and production monitoring systems are all evidence of our determination to deliver zero defect quality in all facilities.

Ardagh produces glass packaging in all shapes and sizes for the world's leading brands. As well as offering a choice of 17 colours, we have the resources and expertise to create distinctive and innovative glass packaging that can set a brand apart. Glass protects its contents perfectly, is eye-catching, has a strong shelf presence and expresses a brand's personality.

From baby food to vegetables and coffee to cook-in sauces, bottles and jars are available in every conceivable size and shape. Glass provides the highest level of protection; nothing gets in or out, so food stays fresh, without the need for refrigeration

产品和背景

Ardagh Group is a global supplier of sustainable, infinitely recyclable, metal and glass packaging for brand owners around the world. The consistent pursuit of market-leading innovation, quality and customer service, backed by investment in our people and processes, underpins everything we do.

We remain focused on continuous improvement in all aspects of our business to deliver long-term, sustainable success for our stakeholders.

Ardagh operates 57 metal and glass production facilities in 12 countries, employing 16,000+ people with sales of approximately \$7bn.

Ardagh Metal Packaging (AMP), 82%-owned by Ardagh Group is separately listed on the New York Stock Exchange.

Ardagh also holds a 42% interest in Trivium Packaging, a leading supplier of sustainable metal packaging to the food & specialty and personal care markets.

Company Profile of **Ardagh Glass**
