地址	Taiwan Glass Ind Corp. (Taichung Factory) TC Taiwan Glass Group 377, Tzuchiang Rd., Taichung Harbour Ind. Zone 435
国家	台湾, 中华民国

产品/机械

We offer a wide range of high quality architectural processed glass products. In order to comply with the current global energy conservation and environmental protection trends, our Taichung plant has begun engaging in high-tech glass product R&D. The plant's "Ultra-white Float Glass for Photovoltaic Batteries" pioneering project obtained funding from the Industrial Development Bureau, MOEA in 2007. In addition, the plant established an optoelectronics department in 2008; this department mass produces ultra-white glass for use in thin-film photovoltaic batteries. During October of the same year, the plant successfully performed trial production of 1.1 mm ultrathin glass for use in touch-control panels.

The factory is capable of producing ultra thin glass between 1.8mm down to 0.33mm, in standard sizes 1,120 x 1,320mm and 1,092 x 1,245mm with its 150tpd furnace.

Company Profile of **Taiwan Glass Ind Corp. (Taichung Factory) TC**

A service of glasssglobal.com, an affiliate of glasssglobal group.
