产品/机械

This training is an excellent introduction to photovoltaic's for general managers and other staff in the photovoltaic industry indirectly involved in the production process.

Programme:

Morning: Review of photovoltaic industry and developments.

Afternoon: From sand to module: solar cell manufacture.

We can develop tailor made courses or master classes on demand for specific requirements.

We are currently developing a number of courses and master classes aimed at those involved in integrating PV systems, such as architects, building engineers, and contractors. These courses will cover aspects ranging from design, economic and engineering considerations to practical system integration.

产品和背景

The Solar Academy provides hands on and 'minds on' training about solar energy. We provide courses that combine theory and practical training for managers, engineers and operators working in solar cell manufacturing. Master classes are provided for service providers, stakeholders and other interested parties

Company Profile of **Solar Academy BV**

A service of glasssglobal.com, an affiliate of glasssglobal group.
