州	Washington

产品/机械

Lane Mountain is the largest glass sand producer in the Northwestern United States. Our low iron and high SiO₂ content combine for a formula friendly ingredient in glass batch formulation. Lane Mountain's glass sand is tightly controlled for sizing and chemistry to the demanding standards of today's quality conscience glassmakers.

Lane Mountain Company mines and custom mixes quartz silica sand for industrial manufacturers from Alberta to Oregon. Lane Mountain silica sand filler shows distinct advantages in many manufacturing applications including: ceramic tile, cement siding, white cement, stucco, and packaged concrete products.

We will screen and size the sand to your specifications in bulk or bags and monitor shipping by rail or truck for you. Our location in Valley, Washington is served by the Burlington Northern and has close access to Interstate highways. Timely delivery and prompt customer service can be expected from the Lane Mountain Company "Team".

Company Profile of **Lane Mountain Company**
