产品/机械

Sheet glass

sheet glass is the original glass for tempered glass , reflective glass, patterned glass , insulating glass and so on. best quality and lowest price

Features:

1. Our glass have smooth surface
2. excellent optical performance
3. and stable chemical properties.
4. Resistant to acid,alkaline and corrosion

Applications

sheet glass are widely used for decorative frame, mirror, architectural windows and doors,greenhouse heating,the external walls of buildings, furniture, variety of different forms of deep processing.

Packing: interlayers paper between two sheets, packed in a standard wooden crates,and about 10-12 crates in a 20" container that weights 23 ton to 25 ton

Thickness:1.5-5.0mm

Minimum order quantity: 1 x 20" container

Payment : T/T L/C

Specification:

measurement :all kinds of specifications

Float glass

Our float glass is pure clear and high transparent without any impurity and any air bubble.float glass is the best glass for building glass with its reasonable price and good quality.

clear float glass Features:

1. smooth face
2. excellent optical performance
3. stable chemical properties and high mechanism
4. resistant to acid alkaline and corrosion

Tinted float glass Features:

1. can reduce transmission of the sun's harmful rays by 80%
2. can be deep processing
3. The comprehensive range of soft natural colors compliments and harmonizes with modern building materials to provide an exciting and different look to new or existing building.

Applications: building glass window glass automotive glass and mirror glass

Specifications:

thickness:3.5-12mm

Color: clear F green dark green blue gray bronze and so on

maximum size:2134*3660

minimum size:1650*2200

we can also produce and process according to customer' requirement

Packing: glass sheet are separated by interlayer paper,then packed into wooden crates

Delivery time:within 15 days after order

MOQ: 1 container

Payment : T/T L/C

Sample available and cost to be sent immediately upon receipt of your DHL, UPS or FEDEX account number.

Pattern glass

Our company introduced the advanced technology and established two advanced rolling production lines. Our main products are different patterns of glass.

Patterned glass is a kind of decorative flat glass with embossed patterns on one or both surfaces. With the special property of decoration, patterned glass can fully allow the light to pass through and on the other hand, can limit or prevent clear view effectively.

Features:

1. Rich and colorful pattern designs provide unique decorative results: obscure and quiet, or sparkling and lively, or serious and elegant, or bold and generous
2. color available: clear bronze gray blue
3. tangible stereoscopic patterns will never fade
4. patterned glass can be cut, ground, drilled, tempered, laminated and printed according to customers' requirements.

Applications:

shower doors and tub enclosures.
decorative furniture and light fixtures
translucent door and window treatments
other special applications, such as foyers and vestibules.

Packing: interlayers paper between two sheets, packed in a standard wooden crate, and about 10-12 crates in a 20" container that weighs 23 tons to 25 tons

Minimum Order Quantity: 1 20" container

Payment : T/T L/C

Specification:

measurement: 1220*1830 1500*2000 2000*2500 and so on/all kinds of specifications

patterned: thickness available: 3mm 3.5mm 4mm 5mm 5.5mm 6mm

pattern: cross square, mistle, glue chip, moran, moru, morgon, flutelite, maple leaf, mascot, bamboo, undersea paradise, flora, flame, chinchilla, ancient figure morgon, golden fish, pyramid, dragonlite, helix, american, rose, karachi, chess, chillin, millennium, mastelite, wanj, idyllic, flutelites, showerlite, music, golden water, galaxy, dewdrop and so on.

tempered glass lids

tempered glass lid, glass cover, glass lid, glass cover round lid, toughened glass lid cooking cover cookware cover, pan lid,

Diameter: 14cm-34cm

common size: 4mm-5mm

type : C-type, G-type

color:

Packing: poly bag /inner packing wrapped in paper outer packing cartons

Delivery time: within 15 days

Features:

1. high strength impact
2. heat stabilization can reach 200 temperature
3. brightness on the surface
4. using float glass as material
5. hard to break, easy to use
6. with one or two holes
7. sample available and cost to be sent immediately upon receipt of your DHL, UPS or FEDEX account number.

If you are interested in our products, please feel free to contact us. As we are the manufacturer, we will give you our best price for our mutual benefit.

Reflective glass

Reflective glass:

The reflective glass which is coated with more metal film layers on the glass surface by horizontal magnetic controlled high-rate sputtering, can effectively control the transmission of visible light and low infrared.

advantage:

1. Rich in a wide range of color tones and gives a striking new image to the outlook of any building.
2. Balance the transmittance of lights and make the room comfortable.
3. Visible lights reflectance and intercepts solar energy. reducing the air-conditioning cost.

Application

It is the preferred screen glass for the external wall decoration for office building, hotels and departments.
(Doors and windows of Building; Curtain wall of tower blocks and building; Cultural facilities and artical decorations)
category

Sort: the transmission ranges 8%-40%, and the sunshade coefficient ranges 0.18-0.56. it can be used sepaately. the product can also be made into hollow glass and tempered glass.

Color: the plated glass features strong reflecting colors by applying this kind off glass as screen.

Specification

Max size: 3600mmX2440mm

Min size: 300mmX100mm

Thickness: 3mm-12mm

Packing: interlayers paper between two sheets, packed in a standard wooden crates, and about 10-12 crates in a 20" container that weights 23 ton to 25 ton

Minimum Oder Quantity: 1 20" container

Payment : T/T L/C
