产品/机械

LC SmartGlass™ offers instant privacy at the flick of a switch. All LC SmartGlass panels are bespoke manufactured using a lamination process which encapsulates a PDLC film between 2 or more glass sheets. Using a minute electrical current, users can immediately switch the LC SmartGlass from clear to private (opaque) and vice versa. LC SmartGlass is easily installed and can be utilised in many applications. Various configurations can be supplied including colour tinted, fire rated, double glazed, curved and shaped.

Company Profile of **SmartGlass International Ltd**

A service of glasssglobal.com, an affiliate of glasssglobal group.
