产品/机械

qgi's state-of-the-art equipment provides architects with a range of technically and aesthetically advanced glass that fulfil the needs of contemporary designs and performance standards. Our all-new facility with state-of-the-art machinery is equipped to satisfy the various demands for high-performance glass by offering a range of glass types, finishes and finishing processes. Our outstanding production line includes:

- Automated glass cutting for straight & shape cutting.
- Heat strengthened & tempered glass of high performance reflective & solar energy (Low-e) glass applicable where safety glazing is required, extreme wind loads, shop fronts and fireplace enclosures.
- Processed glass treatment: edging, drilling, bevelling, shape edging all according to customers requirements.
- Frameless shopfronts, glass facades, partitions, shower enclosures, fireplace enclosures, frameless doors with different assemblies, glass stairs, glass balustrades and panoramic glass elevators.
- Bolted glass for spider shopfronts facades in different applications according to the designed requirements.
- Sandblasted patterned glass.
- Insulated double glazed units suitable for residential and commercial glazing such as compounds, villas and towers
- Decorative glass & mirrors of various shapes and designs.
- Ceramic color tempered glass.
- Ultra- Violet(UV) glass bonding.
