产品和背景

HORN Glass Technology , a German specialist in the design and supply of complete glass melting technology is a solution partner for the worldwide glass industry. With its abroad subsidiary companies in Czech Republic, India, Malaysia and China HORN match the glass industry requirement for local and fast activities.

With its more than 125 year experience in glass melting HORN has a wide range of experience in the design, manufacture and supply of different furnace types for production of lighting ware, tableware, containers, cast glass, float glass, solar glass and technical glassware.

The range of products includes utility equipment as combustion systems, electric control equipment as well as modern process controlling with SCADA systems at the highest standard, to name but a few.

Moreover HORN can cover with its service people the full requirements of the glass industry. A wide range of experts are available to install and commission all melting tanks worldwide. Service people can react quickly in order to provide assistance in case of any trouble during the glass production.

A reference of more than 20.000 tonnes of glass per day coming from furnaces made by HORN express the professional and reliable performance of the market leader in glass melting furnaces. Customers appreciate HORN Glass Industries AG because of the unique properties.

Technology- and System- solution partner
Flexibility and customer orientation
