产品/机械

The MOSS machines represent the right answer to the market's request for large production and high printing accuracy, for objects and containers from 1 ml. to 30 litres such as, for instance, bottles and jars for cosmetics and pharmaceutical, closures and caps for bottles, pails and buckets, flexible and rigid tubes. The printing technologies available at MOSS are four:

- dry – offset
- silk – screen
- hot stamping
- DDS (Digital Decorating System)

Today, the production range of MOSS includes over 40 basic models which, thanks to their modular structure and a wide selection of accessories, have the possibility of being extremely flexible and versatile thus to cope with the market's requirements.

Company Profile of **MOSS S.R.L.**
