OMCO CAN PRODUCE ALL RANGE AND TYPE OF PRODUCTS WHAT IS CONSIDERED AS PART OF THE GLASS MOULD SET

Glass container producers face tougher consumer demands, rising energy costs and increased competition from alternative packaging. As a consequence, mould suppliers have to be able to meet the demands for better quality and shorter lead time whilst retaining a competitive price level.

We at OMCO have gained much experience since our inception in 1964, continuously investing to improve our production processes. Over the last 15 years, OMCO has responded to the increase in demand through acquisitions and more recently through green field ventures.

Today, as one of the world's leading mould manufacturers, we continue to adapt our structure to meet the changing needs of the glass container industry. Based on a strategy of quality, innovation, expansion and a constant desire to exceed customer's expectations, OMCO is committed to serving the glass world.

The versatility of glass is legendary. Moulds are key to realising your ideas in glass. OMCO provides a complete range of mould parts for glass container production, be it for cosmetic ware, pharmaceuticals, table ware, jars, bottles for fruit juices, beers and spirits. We offer the equipment for any shape in a wide variety of quality cast irons or aluminum bronze, using various welding techniques to increase mould life. We offer the complete range of services to make your project a success.
