Contact 3.	先生 Nirmal Simon Managing Director
Contact 4.	女士 Jennifer Rowland CFO

产品/机械

MoreSun® is a proprietary solar coating and application system that adds an Anti-Reflective (AR) & Anti-Soiling (AS) silica shield to any solar array.

UNMATCHED AR PERFORMANCE

MoreSun® helps solar modules without AR capture more light, increasing energy output from direct axis light by 3.4 to 3.8 percent and total energy output by up to 4.7† percent!

INDUSTRY-LEADING ANTI-SOILING

Now formulated with Talus Dirt Rejection Technology™, MoreSun's® unique non-adhesive properties prevent the build-up of dirt, dust and other particulates more effectively than any commercially available Anti-Soiling solution.

LOW-TEMPERATURE FAST-CURE FOR FIELD & FACTORY

MoreSun's® low-temperature curing properties mean it can be applied to retrofit solar arrays in the field or it can be applied in the factory to modules or the glass.

PATENTED APPLICATOR TECHNOLOGY

Pellucere® Technologies' patented application system ensures that MoreSun® can be applied with maximum transfer efficiency, minimal waste, and maximum scientific precision.

产品和背景

PELLUCERE TECHNOLOGIES® DEVELOPS AND MANUFACTURES ADVANCED OPTICAL COATINGS FOR A WIDE RANGE OF ENERGY AND INDUSTRIAL NEEDS

Company Profile of **Pellucere Technologies**

A service of glasssglobal.com, an affiliate of glasssglobal group.
