## 产品/机械

CP Glass supplies Customers with flint, green and amber glass containers, produced in two currently available methods; blow - blow (BB) and press - blow (PB) together with its developed version narrow neck press blow (NNPB). Numerous designs and processes available to customize glass containers meeting the most sophisticated Customer's needs.

The range of products includes glass containers and bottles with unconventional shapes and colours, uncommon cap and closure types, customized engraving and many other features designed to follow the contemporary market trends in product packaging. CP Glass S.A. has achieved its strong market position, in relatively short period of time, by offering high quality glass containers produced on the state-of-the-art manufacturing technologies, supporting by extraordinary skills of the employees. CP Glass ensure quick and reliable supplies of container glass.

## 产品和背景

CP Glass S.A. is a joint stock company established in Poland, with its headquarters in Cracow.

In June 2005 Orzesze Glassworks was acquired by CP Glass S.A. to become part of the Can Pack Group. The Group is one of the most technologically advanced manufacturers of packagings in Europe. The glass bottle supplemented the Group's selling offer traditionally addressed to the beverage industry.

The Can-Pack Group modernized HSO technologically, implemented quality management procedures, corporate governance procedures and strict procedure for management of production costs and assets.

The acquisition of the glassworks in Orzesze activated a number of processes aimed at increasing the quality of glass packagings manufactured by the plant. The glassworks mastered NNPB technology applied in the production of thin walled bottles, minimized the share of defective products in the total production, reduced the weight of packagings and improved the speed of moulding.

CP Glass S.A. is a member company of Can Pack Group and a dynamically growing enterprise, manufacturing and supplying glass containers to the most demanding Customers across Europe and Asia. At CP Glass, we manufacture containers for the beverage, brewing and spirits industries as well as for food.

Company Profile of **CP GLASS S.A.**
