Precipitation of NO<sub>x</sub> (SCR / DeNO<sub>x</sub>)  
Batch Preheating  
Frozen Cullet system ( Defrosting and heating of cullets)  
Hot water boiler / Electricity generation from waste gas heat.

## 产品和背景

INTERPROJEKT is an owner-managed engineering company founded in 1990 in Gelsenkirchen / Essen.

With a competent team of engineers, we provide all engineering services including consulting, planning, detail engineering, manufacturing, assembly and assembly supervision as well as commissioning and after-sales-service. All services are provided by a single source in connection with our sister company DAS in the Czech Republic and our long-term partner for the electrical equipment the ELKA from Krefeld.

We supply plant components and complete turnkey plants for exhaust gas purification and waste heat recovery.
