国家	德国

产品/机械

Supplier of Furnaces for Thermal Toughening, Bending Technology, Broad Line of Heat Processing Furnaces, Combustion Systems, Fuel Blending Systems, Low NOx Wall & Floor Burners and Components SELAS-PRODUCT-PROGRAM Industrial furnaces and heat treatment plants - for ferrous / nonferrous heavy metal and glass-industry Precision gas combustion systems and components - gas/air-mixing machines SMT (POSIMIX) for low and middle outlet pressure - gas/air-mixing system (HP-Blender) for high outlet pressure - gas stabilisation system for process heating (trimblend) - auto complete and raw-gas/air-mix stabilisation apparatus (qual-o-rimeter) - auto mechanical flame arresters (firechecks) for gas/air-premix systems - auto mechanical overpressure blowout for gas/air-premix systems - indicatingmeter for flowrate measurement of air and gases (floscope) Gas and oilburners for petrochemical industry - spec. flatflame-burners for gas- and oil (sidewall) - ultra-low-Nox flatflame-gasburners (sidewall) - low-Nox flatlame-gasburners (sidewall) - low-Nox verticalflame-gasburners (floor and roof) Industrial gasburners - "EG70" nozzlemix gasburners (for normal flame velocity) - "EG/70-U" nozzlemix gasburners (for high flame velocity) - "refrac screen" premix-gasburners for max 1100 deg. C and specific for higher furnace temperatures - "duradiant" premix- and nozzlemix gasburners for furnaces/panels and for open firing - "superheat" premix slot-gasburners - "ribbon" premix gas-lineburners - "multi port" premix-gasburnerheads - "spearflame" premix-gasburnerheads Gas/air flomixers and inspirators Engineering Spare parts on stock, repairing- and maintenance service

Company Profile of SELAS Wärmetechnik GmbH

A service of glassglobal.com, an affiliate of glassglobal group.
